SELF-FLASHING MULTIWAL	L POLYCARBO	NATE SKYLIGHT	Ī		MODEL SFMW
	Multiwall (S	Structured) Polycarbonate	e		
0.062" Aluminum Retaining Angle					
					Butyl Sealant
					Fastener
Condensation		ort Needed on Some Size	es		' 1
Gutter	.1				
Roofing Anchor/					3.5" — 0.062" Extruded
Sealant					Aluminum Frame
(by others)					
		Rough Opening —			V
		rtought opening —			──────────────────────────────────────
SPECIFICATIONS:: Self-Flashing multiwa	all polycarbonate skylight	te as manufactured by I	BK Skylight	Manufacturir	[(000) 000 0004]
shall be factory assembled with 10mm (16	6mm) multiwall polycarb	onate in white (opal), br	ronze or clea	r. Some siz	zes may have color and/or material
shall be factory assembled with 10mm (16 limitations. Frames and retaining angles shall be natural aluminum (mill), bronze or control of the	6mm) multiwall polycarbo shall be .062"extruded al custom color. Skylight is	onate in white (opal), br luminum (6063-T5) with designed and manufact	ronze or clea welded corne ured to meet	r. Some sizers and an interpretation or exceed states	zes may have color and/or material ntegral condensation gutter. Finish
shall be factory assembled with 10mm (16 limitations. Frames and retaining angles shall be natural aluminum (mill), bronze or control of the	6mm) multiwall polycarbo shall be .062"extruded al	onate in white (opal), br luminum (6063-T5) with designed and manufact	ronze or clea welded corne ured to meet	r. Some sizers and an interpretation or exceed states	zes may have color and/or material ntegral condensation gutter. Finish
shall be factory assembled with 10mm (16 limitations. Frames and retaining angles shall be natural aluminum (mill), bronze or (uplift). THICKNESS	6mm) multiwall polycarbo shall be .062"extruded al custom color. Skylight is	onate in white (opal), br luminum (6063-T5) with designed and manufact	ronze or clea welded corne ured to meet KMANSHIP AN	r. Some sizers and an interpretation or exceed states	zes may have color and/or material ntegral condensation gutter. Finish
shall be factory assembled with 10mm (16 limitations. Frames and retaining angles s shall be natural aluminum (mill), bronze or (uplift). ALL UN	6mm) multiwall polycarbo shall be .062"extruded al custom color. Skylight is	onate in white (opal), br luminum (6063-T5) with designed and manufact GAINST DEFECTIVE WORI	ronze or clea welded corne ured to meet KMANSHIP AN	r. Some sizers and an interpretation or exceed states	zes may have color and/or material ntegral condensation gutter. Finish
shall be factory assembled with 10mm (16 limitations. Frames and retaining angles s shall be natural aluminum (mill), bronze or (uplift). THICKNESS 10MM 16MM 5 SKYLIGHT	6mm) multiwall polycarboshall be .062″extruded alcustom color. Skylight is	onate in white (opal), br luminum (6063-T5) with designed and manufact GAINST DEFECTIVE WORI	ronze or clea welded corne ured to meet KMANSHIP AN	r. Some sizers and an interpretation or exceed states	tes may have color and/or material ntegral condensation gutter. Finish andard of 40 psf live load and 20psf
shall be factory assembled with 10mm (16 limitations. Frames and retaining angles shall be natural aluminum (mill), bronze or (uplift). THICKNESS 10MM 16MM 5 SKYLIGHT FRAME FINISH	6mm) multiwall polycarboshall be .062″extruded alcustom color. Skylight is	onate in white (opal), br luminum (6063-T5) with designed and manufact GAINST DEFECTIVE WORI	ronze or clea welded corne ured to meet KMANSHIP AN	r. Some sizers and an in or exceed stop MATERIAL.	res may have color and/or material ntegral condensation gutter. Finish andard of 40 psf live load and 20psf
shall be factory assembled with 10mm (16 limitations. Frames and retaining angles s shall be natural aluminum (mill), bronze or (uplift). THICKNESS 10MM 16MM 5 SKYLIGHT	6mm) multiwall polycarboshall be .062"extruded alcustom color. Skylight is IITS ARE GUARANTEED AG	onate in white (opal), but the luminum (6063-T5) with the designed and manufact GAINST DEFECTIVE WORK	ronze or clea welded corne ured to meet KMANSHIP AN	r. Some sizers and an in or exceed stop MATERIAL.	res may have color and/or material ntegral condensation gutter. Finish andard of 40 psf live load and 20psf
shall be factory assembled with 10mm (16 limitations. Frames and retaining angles shall be natural aluminum (mill), bronze or (uplift). THICKNESS 10MM 16MM 1 SKYLIGHT FRAME FINISH NATURAL ALUMINUM (MILL)	6mm) multiwall polycarboshall be .062"extruded alcustom color. Skylight is IITS ARE GUARANTEED AG BRONZE CUSTOM S TRIANGLE	onate in white (opal), briting the luminum (6063-T5) with designed and manufact GAINST DEFECTIVE WORK	ronze or clea welded corne ured to meet KMANSHIP AN	r. Some sizers and an in or exceed stop MATERIAL.	res may have color and/or material ntegral condensation gutter. Finish andard of 40 psf live load and 20psf
shall be factory assembled with 10mm (16 limitations. Frames and retaining angles is shall be natural aluminum (mill), bronze or (uplift). THICKNESS 10MM 16MM 5 SKYLIGHT FRAME FINISH NATURAL ALUMINUM (MILL) BRONZE PAINT	6mm) multiwall polycarboshall be .062"extruded alcustom color. Skylight is IITS ARE GUARANTEED AG BRONZE CUSTOM S TRIANGLE HEXAGON	onate in white (opal), briting the luminum (6063-T5) with designed and manufact GAINST DEFECTIVE WORK SHAPES AVAILABLE PENTAGON OCTAGON	ronze or clea welded corne ured to meet KMANSHIP AN	r. Some sizers and an in or exceed stop MATERIAL.	res may have color and/or material ntegral condensation gutter. Finish andard of 40 psf live load and 20psf
shall be factory assembled with 10mm (16 limitations. Frames and retaining angles is shall be natural aluminum (mill), bronze or (uplift). THICKNESS 10MM 16MM 5 SKYLIGHT FRAME FINISH NATURAL ALUMINUM (MILL) BRONZE PAINT CUSTOM COLOR	6mm) multiwall polycarboshall be .062"extruded alcustom color. Skylight is IITS ARE GUARANTEED AG BRONZE CUSTOM S TRIANGLE HEXAGON ROUND	onate in white (opal), browning the control of the	ronze or clea welded corne ured to meet KMANSHIP AN	r. Some sizers and an in or exceed stop MATERIAL.	res may have color and/or material ntegral condensation gutter. Finish andard of 40 psf live load and 20psf
shall be factory assembled with 10mm (16 limitations. Frames and retaining angles is shall be natural aluminum (mill), bronze or (uplift). THICKNESS 10MM 16MM 5 SKYLIGHT FRAME FINISH NATURAL ALUMINUM (MILL) BRONZE PAINT	6mm) multiwall polycarboshall be .062"extruded alcustom color. Skylight is IITS ARE GUARANTEED AG CUSTOM S TRIANGLE HEXAGON ROUND	onate in white (opal), brite in white (opal), brite designed and manufact GAINST DEFECTIVE WORK SHAPES AVAILABLE PENTAGON OCTAGON TH MULTI-WALL	ronze or clea welded corne ured to meet KMANSHIP ANI COLOR CLEAR	r. Some sizers and an in or exceed stop MATERIAL.	res may have color and/or material ntegral condensation gutter. Finish andard of 40 psf live load and 20psf
shall be factory assembled with 10mm (16 limitations. Frames and retaining angles is shall be natural aluminum (mill), bronze or (uplift). THICKNESS 10MM 16MM 5 SKYLIGHT FRAME FINISH NATURAL ALUMINUM (MILL) BRONZE PAINT CUSTOM COLOR THIS FORM IS FOR COMPLETE SELF-FLA	6mm) multiwall polycarboshall be .062"extruded alcustom color.
